### **North Branch Construction Completes New Windy Hill School at Colby Sawyer College**

(New London, NH) North Branch Construction, Inc. of Concord, NH completed construction of the new Windy Hill School on the campus of Colby Sawyer College in New London, NH. The Windy Hill program at Colby Sawyer is a College-Community Partnership providing families of the area with day-care, kindergarten and after-school programs serviced by the students and faculty of Colby-Sawyer's Social Sciences and Education Program. The new facility brings the program under one roof, which was formerly housed in the lower levels of the residence halls. The new Windy Hill School features classrooms with built-in kitchens and computer work areas, seminar rooms, two technology-enabled "smart" classrooms for child development classes, an early childhood curriculum laboratory and resource library along with faculty offices. Banwell Architects of Lebanon, NH provided the design for the new school.
